

# DHL FREIGHT – YOUR PARTNER FOR TRANSPORTING FOOD

**FOODSERVICES**

DHL FOODSERVICES – for flexible food transportation  
via overland, sea and air freight.

# Worldwide food logistics for your individual needs.

We have built up a strong global logistics network for your national and international transportation. For your food logistics, we can offer one-stop suitable solutions. We ship your goods by air, sea or overland, as well as offering specialized services customized to every type of food.

## BRANCHES IN FOCUS

DHL is the leading provider of fresh produce and food logistics worldwide. By using the most up-to-date equipment, we ensure that time-sensitive deliveries reach their point of destination fresh and punctually, no matter where that may be.

For the customs clearance of foodstuffs, DHL FOODSERVICES has an extensive network of branches in Europe with specialist staff. We are represented at all strategically important points – whether at domestic customs offices, green borders or major sea ports.

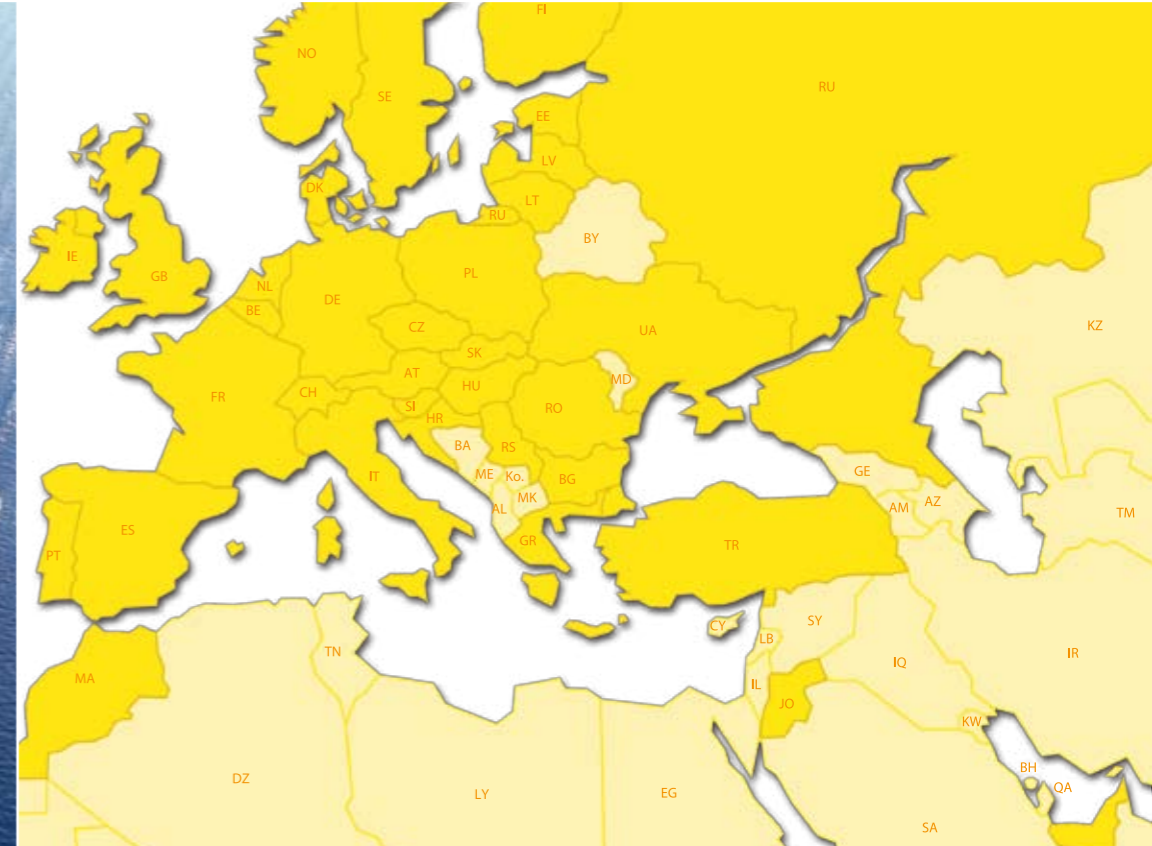

Throughout Europe, we take care of all the customs formalities related to the import and export of foodstuffs for you. In addition, we see to the coordination of authorities for quality control and other monitoring organizations as a part of our daily business.

We run our own customs and tax warehouses as well as transit and fiscal representation with the use of the most current information technology and authorized special procedures.

A special Egypt department is at your disposal with strong commitment and know-how for all of your import and export questions.

### Our services:

- Higher efficiency through faster transport and turnover rates
- An extensive range of services which caters to all customer needs
- Transparency throughout the entire delivery chain
- Our own reports for each customer enable optimized information and communications solutions
- Prioritized handling ensures that your goods are always in good hands
