

Please note the following information for shipment of "DHL Paket International":

General information

- For every parcel there has to be transmitted EDI data to DHL.
- The weight of the parcel has to be exact to 100 grams and needs to be included into the EDI data.
- Transmitting contact information (e-mail/telephone number) in the shipment data is strongly recommended, as queries can be addressed and the quality of delivery and processing time, including customs clearance, can be improved. In addition, the electronic information supports in some countries, e.g. in European destinations, an automated notification process.
- Enclosing messages, that are not assigned for the recipient, is not allowed.
- Shipping of Limited Quantities (LQ's) and LiBa`s is only allowed with supplementary agreement in restricted countries.

Additional information for parcels into customs-destinations:

- DHL Paket International is a single-parcel product. Every individual parcel assigned for destinations with customs clearance, the following documents have to be enclosed: Commercial Invoice in 2 copies, Customs declaration (CN 23) (Amount see table column F). Furthermore parcel-individual customs-relevant information has to be transmitted electronically. With usage of the update Customs declaration (CN23) the Dispatch note (CP71) is no longer required. Content which was formerly given on the Dispatch note (CP71) was included in the Customs declaration (CN23) with the update.
- Consolidating goods of several parcels in one invoice / one Export Accompanying Document is not allowed.
- Customs documents have to be filled in English or destination-specific language (see table column G).
- Customs documents have to be attached to the outside of the package in a customs document bag.
- EDI data including all parcel-individual customs information has to be transmitted before handover of parcels, latest before 6 pm.

- If the export merchandise value is >1.000 € the sender has to register the shipment with German Customs (via ATLAS IAA PLUS). Every parcel needs to have an Export Accompanying Document (Ausfuhrbegleitdokument) enclosed. Generally "DE003305" is to be indicated for the export customs department (Ausgangszollstelle). Every parcel is also to be marked physically (yellow sticker) and within the EDI data as parcel with an Export Accompanying Document.

- Customs clearance charges, including taxation and duties, will be charged to the recipient. Customs clearance to a third-party is not possible.
- Please note import and customs regulations of destination.

Additional information for parcels with the service Cash on delivery (COD) (only available to some destinations; see table)

- Parcels with the service COD have to be shipped including a completed COD payment card TFP3 (Material No.: 914-100-00). The TFP3 is to be attached outside of the parcel.

Please notice the restrictions on imports and customs regulations of the particular destination. All data without guarantee and subject to change.
