

GOGREEN: YOUR CONTRIBUTION TOWARDS CLIMATE PROTECTION

GoGreen

The future belongs to companies who actively take responsibility for climate protection. So take advantage of our GoGreen dispatch service and support climate protection projects to offset emissions.

YOUR BENEFITS

- **Climate-neutral dispatch**
 - With GoGreen you are making a sustainable contribution towards climate protection
 - You can offset the transport-related CO₂e emissions caused by your individual volume of parcels
- **A sustainable image**
 - You will receive a certificate on the CO₂e emissions you have saved on an annual basis
 - Using the GoGreen communication methods, you are sending a clear signal in favor of environmental protection to your customer
- **For your international parcels as well**

You can use GoGreen dispatch within Germany and internationally with DHL Paket
- **Attractive charge**

EUR 0.02 plus VAT in addition to the price of a parcel

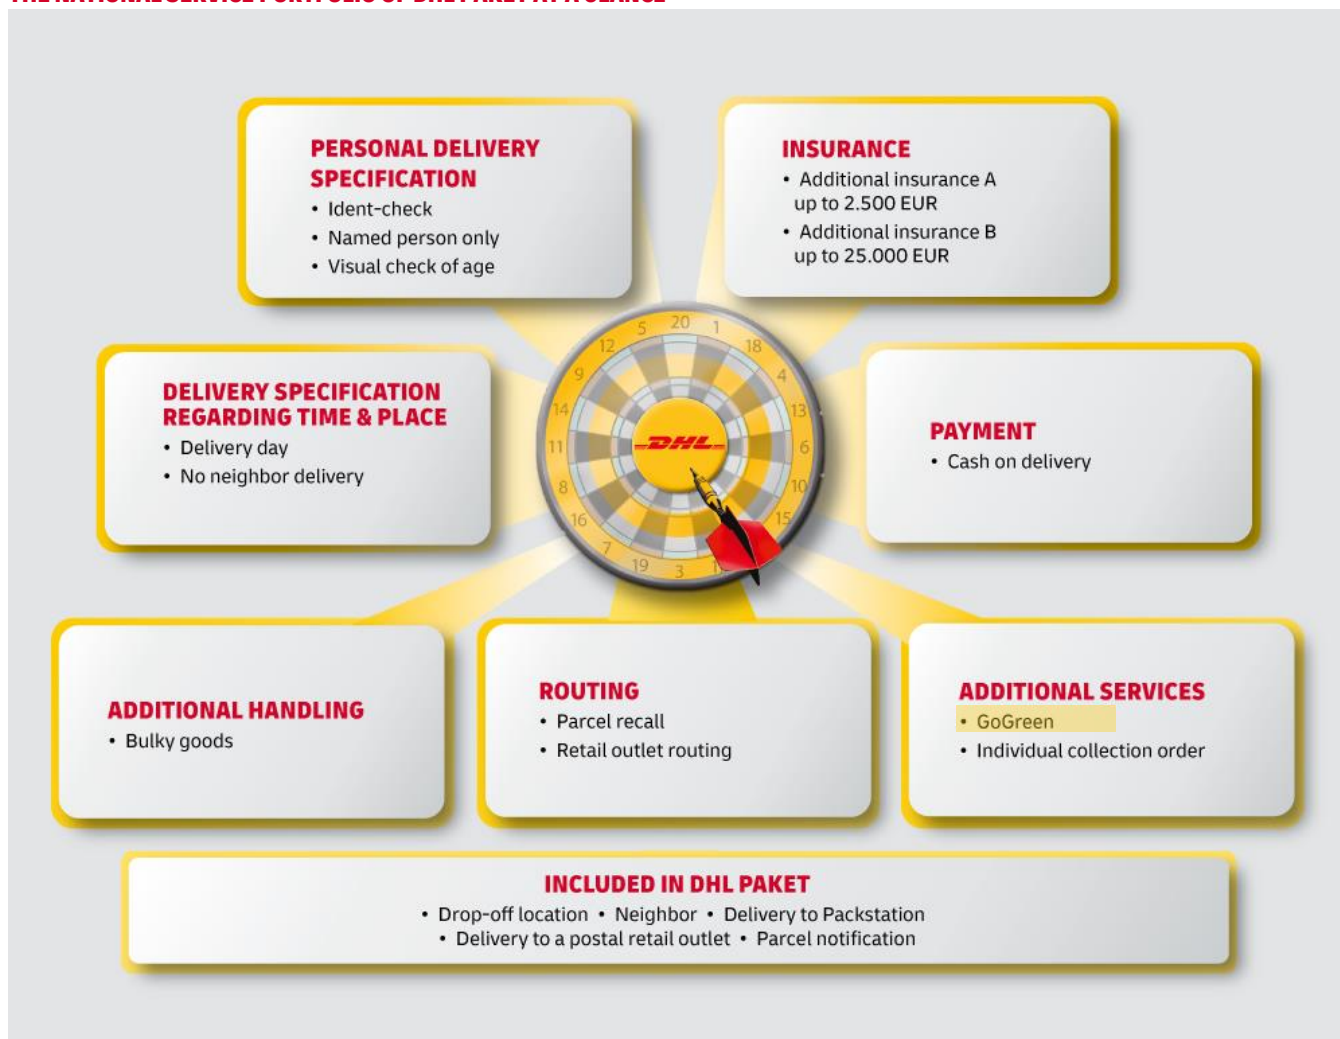

SIMPLE COMMISSIONING FOR YOU

- For the service GoGreen a contractual agreement will be made for all shipments. As a consequence all shipments of a billing number are charged with the corresponding price
- The simplest way of shipment preparation is through the DHL business customer portal. The GoGreen logo is printed on the label to identify the shipment as a climate-neutral shipment

RELIABLE PERFORMANCE BY DHL

- DHL calculates the transport-generated CO2e emissions in accordance with the specifications of ISO 14064 and balances them with external projects and internal measures. The audit and certification of the entire process by an independent certifying company is guaranteed
- Production of an annual certificate on the customer-related CO2e emissions of the previous year, which may be used for advertising purposes

THE NATIONAL SERVICE PORTFOLIO OF DHL PAKET AT A GLANCE
