## OUR SERVICES IN DETAIL

DHL takes on all operational logistics tasks as part of promotional shipments.

### STORAGE

Your goods will be stored in the DHL Logistics Center. After the goods have been posted, DHL will carry out an inspection of incoming goods. This includes counting the number of shipping boxes, a visual check for damage and a random quantity check of the content in the shipping boxes.

### DISPATCHING WITH DHL

You benefit from all DHL services as far as shipping is concerned. This means that your parcels will quickly be delivered to the recipient's front door or to one of around 2,500 Packstations, with the opportunity to pick up parcels round the clock. Optional services such as GoGreen and shipment notification can of course also be selected.

### ORDER PROCESSING

Our experienced employees ensure the parcel content is composed as you requested. It is up to you whether you wish to send just one item or several items. DHL processes up to 10 different item units. You have complete freedom of choice as to how items are combined in the parcels: up to 3 different compositions are possible per promotion.

DHL provides you with unprinted shipping boxes and packaging material. Alternatively you can of course use your own individual cardboard boxes.

On request, DHL will enclose a personalized covering letter according to your specifications.
