

THE CO₂e REPORT PROVIDES BROAD-BASED TRANSPARENCY

YOUR CARBON FOOTPRINT FOR DOMESTIC SHIPPING WITH DEUTSCHE POST AND DHL

Many companies require **transparent emissions data** for **reporting and management purposes**. The **monthly CO₂e Report** available in the Post & DHL Business Customer Portal provides an overview of the **CO₂e emissions generated by your domestic parcel shipments**. If you use our sustainability service **GoGreen Plus***, the report also shows the **extent to which emissions have been reduced**. The GoGreen service will be discontinued as of September 2026. Your monthly emissions data up to and including August 2026 will remain available and continue to be displayed in the report until the end of the year.

STAY UP TO DATE ON YOUR SHIPPING EMISSIONS AT ALL TIMES

Total view of domestic shipment of goods (DHL Paket, DHL Kleinpaket, DHL Retoure, Bulky Goods and other Services)

Company name, Company code:		Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	YTD

YOUR BENEFITS

- **Gain a complete understanding of your emissions**
 - Holistic view of the entire transport chain for domestic goods shipments
 - Emissions calculation based on internationally recognized standards: the Greenhouse Gas Protocol, the Global Logistics Emissions Council (GLEC) Framework, and international standards (ISO 14083)
 - Differentiated consideration of products and services with a CO₂e impact
- **Tailor emission data to your requirements**
 - Customer-specific CO₂e calculations instead of generalized average values
 - Aggregation available across different customer hierarchy levels
 - Emissions data as a basis for your corporate carbon footprint assessment**
- **Reports available at any time**
 - Provided free of charge via the Deutsche Post & DHL Business Customer Portal
 - New monthly report available in PDF and Excel format
 - Final annual report verified by the independent auditor SGS

*GoGreen Plus is a value-added service to a Deutsche Post and DHL shipment contributing to decarbonization measures within Deutsche Post and DHL's logistics network. By using alternative fuels and technologies, Deutsche Post and DHL reduces the usage of fossil fuels in the mode of transport and in buildings used for GoGreen Plus shipments. This does not necessarily mean that the specific shipment is physically transported with vehicles or handled via facilities using these fuels or technologies. Further information, e.g. on concrete decarbonization measures, is available at www.GoGreenPlus.de.

** Deutsche Post AG and DHL Paket GmbH accept no liability for the use and application of the data provided (e.g. in a life cycle assessment); this is solely your responsibility as the customer. For detailed liability provisions, please refer to the current 'Service Description for the CO₂e Report', which is part of your business customer contract.
