

THE RELIABLE LOGISTICS SOLUTION FOR BULKY AND HEAVY GOODS FROM ONE SINGLE SOURCE

DHL 2-Mann-Handling is the reliable logistics solution for bulky, heavy and fragile goods. We offer you individual logistics solutions from shipping to installation or assembly at the point of delivery to returns. In addition, you can select our GoGreen services for CO₂-avoided or compensated shipping.

YOUR BENEFITS

- **Speed:** Germany-wide dispatch within three working days
- **According to customer requirements:** A delivery tailored to your customers' wishes incl. scheduling and notification of delivery directly with your customers
- **Personal:** Exclusive customer service with personal contact to our team of experts
- **Transparent:** An overview of all shipments at any time in the service portal DeliverIT
- **Sustainable:** GoGreen shipping to compensate or avoid CO₂ emissions can be booked
- **Individual services:** Professional assembly and removal of packaging material and old furniture can be flexibly booked as additional services

OUR SERVICES

With DHL 2-Mann-Handling, you receive all logistics services for heavy, bulky and transport-sensitive goods from a single source. We offer individual solutions for shipping and assembly of furniture, consumer electronics, household appliances and leisure equipment.

SHIPPING

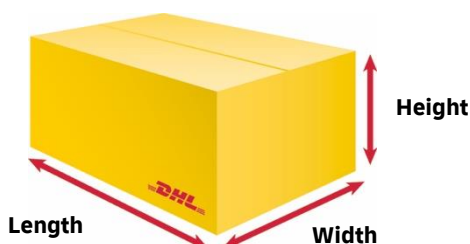

With DHL 2-Mann-Handling, you can ship your goods reliably and quickly with two delivery staff throughout Germany as well as Austria, Luxembourg and Switzerland. We take care of the notification and delivery of the goods to the place of use requested by the customer. In addition, we offer various services such as the collection of old furniture and packaging. An integrated solution for the collection and return of your goods enables you to comply with the statutory return period.

ASSEMBLY

With DHL 2-Mann-Handling, you can offer your customers professional assembly and installation of furniture, consumer electronics, white goods and leisure equipment. Our trained and experienced assembly teams take care of the ready-to-use assembly of the goods and create consistent documentation of the orders. With attractive additional services, we also enable you, for example, to uninstall old appliances and hand them over to professional disposers.

WEIGHTS AND DIMENSIONS PER PACKAGE

Available for up to 100 packages per order

Maximum sizes	Length: 400 cm Width: 230 cm Height: 200 cm
Maximum volumes	4 cubic meters
Maximum weight	120 kg (up to 180 kg within the heavy goods service)

BILLING

DHL 2-Mann-Handling is suitable for a shipping volume of 200 shipments per year or more. Billing is production-related, that is based on the actual consignments delivered. This eliminates time-consuming cancellations in the event of non-delivery.
